

Arrestee Hits to Serious Crimes: Qualifying Offenses for DNA Collection

The distribution of qualifying offenses for arrestee DNA samples that have made DNA database hits to rapes, murders and robberies is illustrated in the following four slides.

This distribution is based on a sample of 69 cases, as of March 19, 2010, where the crime committed could be identified, as well as the matching offender's qualifying arrest offense determined (where the arrest occurred after January 1, 2009 and was the first event for which the offender could have been collected).

Arrestee Qualifying Offenses for Hits to Rape, Murder & Robbery

From a sample of 69 cases, as of March 19, 2010

Arrestee Qualifying Offenses for Hits to Rape

N = 41

From a sample of 69 cases, as of March 19, 2010

Arrestee Qualifying Offenses for Hits to Murder

From a sample of 69 cases, as of March 19, 2010

Arrestee Qualifying Offenses for Hits to Robbery

N = 18

From a sample of 69 cases, as of March 19, 2010
