State Personnel Board Written Transfer Exam

1. What kind of SSA transfer exam is being administered?

   Candidates take a standardized written examination.

2. If a candidate took and passed the former written open SSA examination, but was not reachable, does he/she have to retake the written exam in order to transfer to the SSA classification?

   This depends on when the candidate took the written exam. SPB will maintain a database with the results of all candidates that took the prior SSA written test during the period of 2000 through July 31, 2007. Since the requirement for transfer is to successfully pass the SSA written test, departments can verify whether a candidate previously passed or failed the written test. If the prior score file indicates that the transfer candidate passed the written test, the hiring department can use those results to transfer the candidate to the SSA class, as long as the transfer meets all of the transfer rules.
