Notes: Dash indicates that data are not available.

Since 1952 there have been many changes in laws, data collection procedures, etc.; therefore, caution should be used when comparing data for the 1952-2005 time period.

Juvenile misdemeanor arrest data for 1973-2005 are not comparable to prior years due to changes in reporting criteria.

Population breakdowns by age are not available prior to 1960; therefore, populations at risk cannot be calculated for 1952-1959.

^a Includes estimated annual data for the Bakersfield Police Department and the Oakland Police Department. For additional information, see "Appendix 1, Data Characteristics and Known Limitations."

¹ Status offenses include truancy, incorrigibility, running away, and curfew violations. These offenses can only be committed or engaged in by a juvenile.

² Rates are based on annual population estimates provided by the Demographic Research Unit, California Department of Finance (see Table 58).

³ Rates are based on the population at risk for each year. The categories are total (10-69 years of age), adult (18-69 years of age), and juvenile (10-17 years of age) (see Table 58).
