Notes: Dash indicates that data are not available.

Fiscal year 1980/81 is used as the base year.

^aThe 1995/96 data were not available from the Office of the State Controller in time for inclusion in this publication.

^bBecause 1995/96 data are not available, percent changes have been calculated for the four year period, 1990/91 to 1994/95, only.

¹ Constant-dollar expenditures are calculated according to the State and Local Government Implicit Price Deflator. Amounts may differ from those previously published because of revisions to the implicit price deflator.
