The player receives two cards initially. All cards in the game are always dealt face up to all participants. After all players have made and set their hands, then the Player/Dealer receives his/her second card. RULES & STANDARDS FOR THE PLAYER/DEALER POSITION

The Player/Dealer position occupies the "bank" position at the gaming table. The Player/Dealer places a set amount of money on the table and his/her hand plays against all the player's hands on the table. The Player/Dealer position must rotate in a continuous and systematic fashion, and cannot be occupied by a person for more than two consecutive hands. There must be an intervening Player/Dealer so that one person cannot continually occupy the Player/Dealer position within the meaning of Oliver v. County of Los Angeles (1998) 66 Cal. App. 4th 1397, 1408-09. And in addition to the meaning of AB 1416 (the Wesson Bill) which added section 330.11 to the California Penal Code, relating to licensed gambling establishments and any future regulatory guidelines from the California Department of Justice, Division of Gambling Control, with respect to the operation of a controlled game featuring a Player/Dealer position.

The Player/Dealer is never required to cover all opposing player's wagers. A Player/Dealer can only win or lose as much as they have placed on the table to cover a portion or all of the wagers. If there is not enough money from the Player/Dealer position to cover all winning wagers, there will be no refund, free collection, or other form of rebate given to the affected players.

After all players have exercised their options in standing or drawing additional cards to make the best hand possible, the Player/Dealer receives their second card face up. Once that card is dealt, the casino dealer determines where the "action" button is placed based on the numerical value of the card. The Player/Dealer's hand is then played according to the chart provided below. A Player/Dealer has no options other than to hit on a Soft 17 or lower and stand on a Hard 17 or higher. All players' hands are compared against the Player/Dealer's to determine a winning or losing hand.

The house never participates as a Player/Dealer.

PLAYER DEALERS' HAND AND DRAW CARDS:

The dealer draws after all players have drawn. At this time the dealer has only one face up card.

- a) Remove the round dealer button from the up card and deliver one card from the shoe.
- b) Place the first draw card to the left of the up card. Position the action button accordingly, as demonstrated below.

- c) All additional draw cards will be placed on the right side of the original up card.
- d) Player dealers' drawing rules are:
 - d1) Must HIT on soft 17 or less.
 - d2) Must STAND on hard 17 or more.
 - d3) No options are given to the player dealers.

GAME RULES

1. A "Natural 22" (the first two cards dealt are Jokers) is the best possible hand. If the player and the Player/Dealer's hands are both a "Natural 22" the hand is a push or tie, and no action is taken on the wager.
2. The second best hand is a Joker (wild card) with any other card.
3. If a player's hand totals more than a "Natural 22" and the Player/Dealer's hand totals more than a "Natural 22" the Player/Dealer wins the hand.
4. If a player's total is less than a "Natural 22" and the Player/Dealer's total is more than a "Natural 22" the player wins the hand.
5. If a player's total is less than a "Natural 22" and the Player/Dealer's hand is less than a "Natural 22" the hand closest to a "Natural 22" wins.
6. If a player and the Player/Dealer have the same total and it is less than a "Natural 22", the hand is a push or tie, and no action is taken on the wager.
7. If a player's and the Player/Dealer's totals are more than a "Natural 22" the following will apply:
 - A) If the Player/Dealer is closer to a "Natural 22", the Player/Dealer wins the hand.
 - B) If the player is closer to a "Natural 22" the result is a push or tie and no action is taken on the wager.
8. The Player/Dealer wins all ties or pushes over a "Natural 22".
9. If the Player/Dealer's first up card is a Joker, all hands are frozen on the table. The Player/Dealer will draw the next card and the action button will be placed. Winning and losing wagers will be determined and pay-offs made.
10. No player may double-down, surrender, or split when the Player/Dealer is dealt a Joker as their first up card.
11. Players with a non-Joker hand have the option to draw additional cards to make their best hand.

No Bust – 21st Century Blackjack

12. A Joker with any card is a hard 21 and a player cannot draw an additional card.
13. The game is played on an industry standard Blackjack table where up to eight primary players can be seated.
14. All collection fees are collected by the casino dealer prior to the start of play. Collection fees are pre-determined by the casino and can be up to three separate rates per game. All collection rates and wagering limits for the game will be posted at each gaming table and will not be based on a percentage or other factors.
15. Backline betting is allowed; subject to local ordinance or code.
16. Third Party Providers of Proposition Player Services, as defined in Section 19984 of the California Business and Professions Code (the Gambling Control Act), are permitted to play.

DOUBLE-DOWN, SPLIT, SURRENDER & ODDS

1. Players can double-down on their first two cards dealt to them. The player must place a second wager equal to the wager he/she originally placed prior to the start of the game. The player will only receive one card regardless of the total.
2. Players can split any pair of two cards with a value of 10 each, originally dealt to them. The exception is two Aces. The player must place a second wager equal to the wager he/she originally placed prior to the start of the game. A player may draw as many cards as he/she desires per split card to make the best hand.
3. Players can split any two Aces originally dealt to them but can only receive one extra card per Ace. The player must place a second wager equal to the wager he/she originally placed prior to the start of the game.
4. Players may double-down after a split if the value of the cards meets the requirements outlined in #1, above.
5. Multiple splitting of cards is permitted up to a maximum of three (3) splits per hand.

No Bust – 21st Century Blackjack

6. Players can surrender after their first two cards are dealt and half of the wager will be forfeited. Their play for that hand will cease.
7. Players cannot double-down, split, or surrender when the Player/Dealer's first card dealt is a Joker.
8. Player's Joker-Joker or "Natural 22" pays 2 to 1. All other hands pay 1 to 1.
9. All pay-offs are to the extent that the Player/Dealer's money covers the action on the table. A Player/Dealer cannot win or lose more than the entire amount of money placed on the table prior to the start of the hand.

ROUND OF PLAY

1. Players choose their spot on the table and place their wagers.
2. A Player/Dealer is identified by a "bank" button placed in front of their seat position. The Player/Dealer places money in front of him/her. This money will be used to pay any winners and the total will only be collected from the losers. The combination of both may not go over the total amount the Player/Dealer placed on the table.
3. After the wagers are made, the players and the Player/Dealer post a pre-determined collection fee in front of their wagers. The casino dealer then collects the collection fee and places them in a secured drop box affixed to the gaming table.
4. All wagering limits and collection fees are pre-determined and prominently displayed at each gaming table.
5. The casino dealer begins to deal cards one at a time, in a clock-wise fashion, starting at the first occupied position to the right of the Player/Dealer's seat position and the "bank" button. A single card is dealt to each player. The Player/Dealer receives their first card in turn but it is placed in front of the casino dealer instead of the actual Player/Dealer.

No Bust – 21st Century Blackjack

6. The casino dealer then deals the second card to the players. The casino dealer does not deal a second card to the Player/Dealer. The casino dealer deals additional cards to the players as they request them. After all players are satisfied with their respective hands, the Player/Dealer is dealt their second card.
7. Once the Player/Dealer receives their second card, the casino dealer determines the numerical value of the card and determines where the "action" button is placed. This is accomplished by the casino dealer beginning his/her counting to the right of the Player/Dealer seat position and counting in a clock-wise manner until the number value of the card is reached.
8. The casino dealer continues to draw cards for the Player/Dealer, if necessary until a Hard 17 or higher number is reached. The Player/Dealer does not have an option of hitting a Hard 17 or higher nor staying on a Soft 17 or lower.
9. Once the Player/Dealer's hand has been made, all winners and losers are determined when their cards are compared to the Player/Dealer's. Money is paid or collected on wagers starting at the seat position where the action button was placed and then continues in a clock-wise fashion. The Player/Dealer cannot win or lose (aggregate) more money than they originally placed on the table. If there is not enough money to pay all winning wagers, no refunds, free collection, or other action will be taken on those wagers.
10. After all wagers are settled; the cards are collected and discarded. The bank button is changed and after every two hands, and the Player/Dealer position is rotated in a clock-wise fashion around the table. If there is no person that intervenes on the Player/Dealer position, the game will be "broken."

Note: An Ace may be played high or low for a 5-card straight.
Example: A-2-3-4-5 = Low Straight 10-J-Q-K-A = High Straight
5. Rank of Hands: Royal Flush, Straight Flush, Four of a Kind, Full House, Flush, Straight, Three of a Kind, Two Pair, One Pair, High Card.
6. The Play: Hold'em is played with a flat disc called the dealer button. The player with the button is last to receive cards on the deal.
7. The two players to the left of the dealer button post blinds before any cards are dealt. The blinds are live and count as part of the players' bets.
8. All players are dealt two down cards (hole cards) as their initial starting hands. There is a round of betting. The action starts with the first player in front of the big blind.
9. All players have the right to throw their hand away, call the big blind, or raise the pot. The action goes clockwise.
10. Three board cards (called the flop) are now turned face up at once in the center of the table, and another round of betting occurs.
11. The action now starts with the first active player in front of the button. The next two board cards are turned face up (the turn and the river) one at a time with a round of betting after each card.

The games can be played with a minimum of one (1) and a maximum of eight (8) decks.

- A "BONUS" card and an Ace, on the initial deal, is the best possible hand. It is known as a PURE 21.5 BLACKJACK and pays 3 to 2.
- A "BONUS" card dealt with any other card is worth 10 and is added to the other card(s) point total.
- An Ace has a value of either 1 or 11.
- All cards from 2-9 have their face value.

ROUND OF PLAY

1. Pure 21.5 Blackjack is played on a raised gaming table. The table seats eight players who face the dealer in a 180-degree seating arrangement. The tables are the standard blackjack tables commonly used in the casino industry. The casino dealer stands opposite the players, and in the center of the table. The casino dealer's chip tray is set in front of the dealer. The play starts from the right of the dealer and proceeds in a clockwise fashion.
2. The game uses a 52-card deck with aces through nines (the standard spades, hearts, clubs and diamonds) and 16 bonus cards (four of each "king", "queen", "jack" and "ten"). The game is played with a minimum of a single deck, totaling 52 cards and to a maximum of eight decks totaling 424 cards.
3. All tables will have some type of signage where the name of the game is displayed, along with the minimum and maximum wager allowed the collection fee for the players and Player/Dealer will also be displayed. A maximum of three collection rates is allowed in compliance with the California Penal Code.
4. A standard round of play begins when a Player/Dealer is designated. The Player/Dealer will place an amount of money (casino chips) in a betting circle in front of their seat. That money will be used to pay the winners and will set the amount that he/she can collect for the losers. The casino

will place a button in front of the Player/Dealer, which designates that they are taking the "bank position and further designate whether it is the first or second turn for the Player/Dealer in the banking position. The Player/Dealer will place the collection fee in front of his/her betting circle.

5. Players at a table then place their wagers in designated betting circles. The players may place a wager at his/her seat along with other unoccupied betting circles. Each player must pay the posted collection for the wager they placed in any betting circle where they have money or "action".
6. Once the Player/Dealer has posted the amount of money, he/she will wager against the other players, and once the players have placed their wagers, the casino dealer will collect all of the fees. This will always be accomplished before the start of the game in accordance with the California Penal Code. The casino dealer will take the collection fees and drop them into a locked collection box affixed to the gaming table.
7. After the fees have been collected, the dealer will deal the cards to the players and the Player/Dealer. All cards dealt throughout the game are face up, with the exception of the Player/Dealer's second card, which will remain "face down" until all players have acted on their hands. The casino dealer is the only person on the table allowed to touch the cards. The players will signal the dealer with hand gestures that indicate whether the wish to hit or stand. The hand signals will be consistent with the industry standard signals of a sweeping motion towards a players body, indicating a hit, or a side to side hand motion, indicating the desire to stand. The casino dealer deals the first card to the player seated to the left of the designated Player/Dealer, in a clock-wise manner. Each player will be dealt one card face up with the Player/Dealer receiving the last card. The Player/Dealer's cards will be placed in front of the casino dealer.
8. The casino dealer will deal a second card to the players in the same order noted above. The players are given an opportunity, starting with the player seated to the left of the Player/Dealer, to be dealt additional cards to make the best possible hand. (Rules and procedures for splitting, doubling down, and surrendering will be outlined later)

9. Players must follow the below listed **Charts 1A and 1B** in deciding whether to hit or stand on a particular hand.
10. After all players have acted on their hands and indicated to the casino dealer that they do not want or cannot receive additional cards, the Player/Dealer's down card will be turned up. This down card will determine where the "action button" is placed.
11. The "action button" determines where the action starts and who will be first to be paid for their winning hand or lose their wager. The action button is placed based on the numerical value of the Player/Dealer's down card. A chart (**Diagram #1**) outlining the placement of the action button follows.
12. The Player/Dealer's hand will then be completed according to the rules listed on **Chart 1B**. Once the Player/Dealer's hand is completed, the payoff and/or collection of wagers will begin in the seat designated by the action button and continue in a clockwise manner until all wagers have been acted on.
13. In the event that the Player/Dealer does not have enough money on the table to cover all the wagers on the table, there will be no free collection button, refund, or other conciliatory action given to the affected players by the casino or the Player/Dealer.
14. The Player/Dealer's cards will always be dealt and placed in front of the casino dealer's tray. The placement of the Player/Dealer's cards is standard in all games and is depicted below. See **Diagram #2**

Eight Handed Table

15. After all wagers are settled, the cards are collected and discarded. The bank button is changed from 1st Bank to 2nd Bank and after every two hands, the Player/Dealer position is rotated in a clockwise fashion around the table.
16. The next round of play begins when the casino dealer collects all the cards from the table and places them in the discard tray. The casino dealer will also change the bank button, and if necessary (if the same person has already held the Player/Dealer position twice) rotate the Player/Dealer position clockwise to the next position on the table. If there is no person that intervenes on the Player/Dealer's position, the game will be "broken" or stopped, as required by the California Penal Code.

OPTIONS

The following options are available for individual casinos to cater to the needs of their customers:

Pure 21.5 Blackjack Payoff Options

6 to 5 Option – Pure 21.5 Blackjack pays 6 to 5 when dealt to a Player. A Pure 21.5 Blackjack consists of an Ace and a Bonus card on the initial two cards dealt to a Player.

7 to 5 Option – Pure 21.5 Blackjack pays 7 to 5 when dealt to a Player. A Pure 21.5 Blackjack consists of an Ace and a Bonus card on the initial two cards dealt to a Player.

Insurance- If the Player/Dealer's upcard is an Ace, all Players will have the option to place separate "insurance" wager. They are wagering that the Player/Dealer's undercard is a Bonus card giving the Player/Dealer a Pure 21.5 Blackjack. Winning Insurance wagers pay 2 to 1. Insurance wagers may be equal to no more than $\frac{1}{2}$ of a Player's original wager. Insurance may not be offered in casinos where Pure 21.5 Blackjacks pay 6/5 or 7/5.

Even Money- In conjunction with offering insurance, when the Player/Dealer's upcard is an Ace, Players that have a Pure 21.5 Blackjack (an Ace and a Bonus Card) may opt to take even money on their wagers before the Player/Dealer's undercard is checked for a Bonus Card. The Player is actually making an insurance wager equal to $\frac{1}{2}$ of the original wager. If the Player/Dealer has a Bonus card as the undercard (a Pure 21.5 Blackjack), the Player wins the insurance bet (a wager equal to $\frac{1}{2}$ of the original wager that pays 2 to 1) and pushes on the original wager. If the Player/Dealer does not have a Bonus Card as the undercard, the Player will lose the insurance bet and is paid 3 to 2 (for the Pure 21.5 Blackjack) on the original wager. The result in each case is the same as the Player wins an amount equal to the original wager (even money).

Player/Dealer 888 Option- If the Player/Dealer's hand is 888 (three eights), all Players who have a total exceeding 21.5 **win**. (The option currently being offered is the same as this one, except all Players exceeding 21.5 **push**).

Player/Dealer 888 Bonus or Jackpot- Casinos could offer a Bonus or Jackpot to be paid when the Player/Dealer's hand is 888 (three eights). Each individual casino will decide collection fees, distribution percentages, and funding methods.

Player/Dealer Same Color 888 Bonus or Jackpot- Casinos could offer a Bonus or Jackpot to be paid when the Player/Dealer's hand is 888 of one color (three eights of one color). Each individual casino will decide collection fees, distribution percentages, and funding methods.

Player/Dealer Suited 888 Bonus or Jackpot- Casinos could offer a Bonus or Jackpot to be paid when the Player/Dealer's hand is a suited 888 (three eights all the same suit). Each individual casino will decide collection fees, distribution percentages, and funding methods.

Suited 777, Suited 678, and Unsuited 777- Casinos could offer Bonuses to Players that have hands that consist of three suited sevens, three unsuited sevens, and a six, seven, and eight of the same suit. Each individual casino will decide collection fees, distribution percentages, and funding methods.

Same color 777 and same color 678- Casinos could offer Bonuses to Players that have hands that consist of three sevens of the same color and also a six, seven, and eight of the same color. Each individual casino will decide collection fees, distribution percentages, and funding methods.

Seven Card Charlies- Casinos could offer Bonuses to Players that have hands that contain seven or more cards that total less than 21.5. Each individual casino will decide collection fees, distribution percentages, and funding methods.

Bonuses or Jackpots for Two, Three, Four, Five, or more Pure 21.5 Blackjacks in a row- Casinos could offer Bonuses or Jackpots to Players that have a Pure 21.5 Blackjack on consecutive hands. Payoffs could increase as the number of consecutive hands increases. Each individual casino will decide collection fees, distribution percentages, and funding methods.

LEGAL

The Player/Dealer position must rotate in a continuous and systematic fashion, and cannot be occupied by one person for more than two consecutive hands.  - c. 1 or 11 with three or more cards.
3. All tables will have signage displaying the name of the game along with the minimum and maximum wager allowed, and collection fees for the Players and Player/Dealer.
4. A standard round of play begins when a Player/Dealer is designated. The Player/Dealer places a wager in front of her betting circle. This wager is used to pay the winners. The Player/Dealer will place the collection fee in front of his betting circle.
5. Players at a table then place their wagers in designated betting circles or other unoccupied betting circles. Each Player must pay the posted collection for their wager(s) in any betting circle where they have money or "action".
6. Prior to the start of play, the casino dealer will take the collection fees.
7. Play commences with the casino Dealer distributing the cards to the Players and the Player/Dealer. All cards shall be dealt face up. The casino Dealer is the only person on the table to touch the cards. The Players will signal to the Dealer by hand gesture if they wish to hit or stand. The casino Dealer deals the first card to the Player seated to the first seat on the casino Dealers left (excluding the Player/Dealer), in a clock-wise

<i>Must Stand On</i>	<i>Must Hit On</i>	<i>Have Option On</i>
Hard 17 And Above	Soft 17 Or Less	None

14. Beginning with the player to the left of the casino dealer, the settling of the wagers will be done in a counter-clockwise manner using the bottom card to determine where paying & collecting will begin. An Ace will result in starting from the first seat, 2 will result in starting with the 2nd seat. The Player/Banker position is skipped as if it didn't exist. For Jack, Queen and King, values will be 11, 12 and 13 respectfully. Paying and collecting will continue until all wagers have been acted upon, or until the Player/Banker funds are exhausted.
15. After all wagers are settled, the cards are collected and discarded. The bank button is changed and after every two hands, the Player/Dealer position is rotated in a clock-wise fashion around the table.

** For the game of Texas Hold'em the collection shall be taken from the house dealer from the pot after the cards have been dealt and the first round of betting has been completed, immediately following the flop. The appropriate fees are dependent on the small blind outlined in the chart above. However if the hand ends before the flop modified fee (a) shall be taken from the small blind provided there is action (bet, call and/or raise), otherwise there will be no collection taken. Additionally, if play continues to the turn or river, with a bet, modified fee (b) will be collected in addition to the regular collection fee.*

ROUND OF PLAY

1. No-Bust- 21st Century Blackjack is played on a raised gaming table. The table has up to ten betting positions/players that face the Dealer in a 180-degree seating arrangement. The tables are commonly used in the casino industry. The casino Dealer stands opposite of the players, and in the center of the table. The casino Dealer's chip tray is set in front of him/her. The play starts from the left of the dealer and proceeds in a clock-wise fashion.
2. The game utilizes a 52-card deck. The aces are special cards with the value of:
 - a. 12 on first two cards with all cards with the value of 10.
 - b. 1 or 11 otherwise.
3. All tables will have signage displaying the name of the game along with the minimum and maximum wager allowed, and collection fees for the Players and Player/Dealer.
4. A standard round of play begins when a Player/Dealer is designated. The Player/Dealer places a wager in front of their betting spot. This wager is used to pay the winners. The casino will place a "button" in front of the Player/Dealer as a designation whether it is the first or second turn for the Player/Dealer in the banking position. The Player/Dealer will place the collection fee in front of his betting spot.
5. Each player at a table then places their wagers in designated betting spot or other unoccupied betting spot. Each Player must pay a posted collection for their wager(s) in any betting spot where they have placed a wager.
6. Prior to the start of play, the casino dealer will take the collection fees.
7. Play commences with the casino Dealer distributing the cards to the Players and the Player/Dealer. All cards shall be dealt face up. In a face up game the casino Dealer is the only person on the table to touch the cards. The Players will signal to the Dealer by hand gesture if they wish to hit or stand. These hand signals will be consistent with industry standard signals such as moving their hand in a sweeping motion towards their body indicating they want an additional card and in moving their hands in a side to side manner, indicating they wish to stay with their cards on the table. The casino Dealer deals the first card to the Player seated to the first seat on the casino Dealers left (excluding the Player/Dealer), in a clock-wise fashion. Each Player will be dealt one card face up. The Player/Dealer's first card will be placed in front of the casino dealer.
8. The casino Dealer will deal a second card to the players, again starting at the first seated position to the left of the casino Dealer, in a clock-wise fashion. The Player/Dealer will receive a face down card in front of the casino Dealer.
9. Players must follow the below listed chart in deciding whether to hit or stand on a particular hand:

Rules For Player		
<i>Must Stand On</i>	<i>Must Hit On</i>	<i>Have Option On</i>
"Naturals" Soft 20 & 21	5 Or Less	6 Thru 19

10. After all Players have made their best hands by indicating to the casino Dealer that they do not wish to have additional cards dealt to them, the casino Dealer will turn over the Player/Dealer's hole (second) card.
11. The Player/Dealer's cards will always be dealt and placed in front of the casino Dealer's tray.
12. The casino dealer continues to draw cards for the Player/Dealer, if necessary until a Hard 17 or higher number is reached. The Player/Dealer must follow the following hit rules:

Rules For Player/Dealer		
<i>Must Stand On</i>	<i>Must Hit On</i>	<i>Have Option On</i>
Hard 17 And Above	Soft 17 Or Less	None

13. Once the Player/Dealer's hand has been made, all winners and losers are determined by comparing the numerical value of the Player's hands with the Player/Dealer's hand. The Player/Dealer can only win or lose as much as they have placed on the table to cover a portion or all of the wagers.
14. Beginning with the player to the left of the casino dealer, the settling of the wagers will be done in a counter-clockwise manner using the card that was dealt face down to the player/dealer to determine where paying & collecting will begin. An Ace will result in starting from the first seat, 2 will result in starting with the 2nd seat. The Player/Banker position is skipped as if it didn't exist. For Jack, Queen and King, values will be 11, 12 and 13 respectfully. Paying and collecting will continue until all wagers have been acted upon, or until the Player/Banker funds are exhausted.
15. After all wagers are settled, the cards are collected and discarded. The bank button is rotated after every two hands, the Player/Dealer position is rotated in a clock-wise fashion around the table.
16. The next round of play begins once the casino Dealer collects all cards from the table and places them in the discard tray. The casino Dealer will also change the Bank Button; (if the same person has already held the Player/Dealer position twice) rotate the Player/Dealer position clock-wise to the next position on the table.
